June 7, 2006

Front Page News

The Front Page of the Leader Post was consumed today with the exclusive story by Business Editor Bruce Johnstone of Terra Grain Fuels announcement to build North America's largest Wheat Ethanol Plant in Belle Plaine, SK.

Chairman of Terra Grain Fuels Gary Drummond along with Tim La France, President and CEO of Terra and Harvey Granatier, CEO of Conexus Credit Union confirmed the rumours that had been circulating for months regarding the 130 million dollar project.

The Project will create over 150 full time construction jobs along with 40 plus permanent jobs. When operational the plant will consume over 15 million bushels of Wheat and will produce over 150 million litres of pure Ethanol.

Commissioning is scheduled for November, 07 with full production beginning in December, 07.
